

# SEHRISH FATEMA

## Software Developer

### PROFILE

Results-driven Software Developer with hands-on experience in building responsive and scalable web applications using React, TypeScript, and Material UI. Skilled in developing modern user interfaces, integrating REST APIs, and improving application performance and user experience. Passionate about writing clean, maintainable code and collaborating in agile teams to deliver efficient digital solutions. Seeking opportunities to contribute to innovative projects while continuously expanding technical expertise.

### SKILLS

- Python
- JavaScript (ES6+)
- Typescript
- HTML5
- CSS3
- SQL
- React.js
- React Native
- API Integration
- Redux
- Material UI
- Postman
- Git
- GitHub

### EDUCATION

- **Bachelor of Technology** | **MGM University.**  
2026 | Information Technology – 8.4 CGPA
- **Diploma in Electrical Engineering** | **MSBTE**  
2013 | Electrical Engineering – 83.00%

### WORK EXPERIENCE

#### ➤ **FAIMSOFT** | **Junior Software Developer** | **June 2026–Present**

- Developed and maintained reusable React.js components to improve application scalability and code reusability
- Performed code reviews for newly developed components and ensured adherence to coding standards and best practices.
- Integrated REST APIs and handled dynamic data rendering across multiple application modules.
- Worked closely with UI/UX designs to implement responsive and user-friendly interfaces using React.js, HTML5, CSS3, and JavaScript.
- Debugged and resolved frontend issues, improving application performance and user experience.

#### ➤ **FAIMSOFT** | **Software Developer intern** | **Dec 2025 – June 2026**

- Developed and maintained responsive web applications using React.js, JavaScript, HTML5, and CSS3.
- Built reusable UI components and integrated REST APIs to deliver dynamic user experiences.
- Collaborated with backend developers to design and consume APIs efficiently.
- Implemented authentication, authorization, and role-based access control features.
- Fixed bugs, resolved production issues, and delivered application enhancements.
- Used Git and GitHub for version control and collaborative development.

### TECHNICAL EXPERTISE

- Strong knowledge of React.js, JavaScript (ES6+), HTML5, and CSS3 for developing responsive and interactive web applications.
- Hands-on experience in building reusable UI components, implementing state management, and integrating REST APIs into frontend applications.
- Experience in developing and consuming RESTful APIs using Django and Django REST Framework.
- Strong understanding of component-based architecture, responsive web design, and cross-browser compatibility.
- Experience in debugging, troubleshooting, and optimizing application performance to improve user experience.
- Experience working with Git and GitHub for version control, code collaboration, and release management.

### PROJECTS

- **AWN – Your Legal Consultant**
  - Developing a Legal Advice platform to help users access legal information and guidance online.
  - Building responsive and reusable UI components using React.js and Material UI.
  - Integrating REST APIs for dynamic data fetching and user interaction.
  - Implementing features such as user interface navigation, responsive layouts, and modern UI components to enhance user experience.
  - Collaborating with team members using Git/GitHub for version control and project updates.
- **Expense Tracker**
  - Developed a web-based Expense Tracker to manage daily income and expenses.
  - Implemented functionality to add, delete, and track expenses with automatic balance updates.
  - Designed a simple and responsive user interface for better usability.
  - Used state management in React to dynamically update expense data
